Internal note

We have 3 new starters next week across different departments. John Doe (IT), Amy Lee (HR), Carlos Ruiz (Sales). Can you get their accounts created ahead of their start dates?

Internal note

Built CSV (new users.csv) with Name/SamAccountName/OU/Password Columns. Bulk-created all three via Import-CSV | ForEach-Object { New-ADUser ... }. Verified with Get-ADUser -Filter * | Select-Object Name, SamAccountName, Department, Title.

All three accounts are created and ready ahead of their start dates. Temporary password will be provided on their first day.
