Internal note

I have a new hire account, Jane Smith, starting Monday on the sales team. Could you set up her AD account? She'll need to be part of our Sales-Team group too.

Internal note

Created user via New-ADUser (SamAccountName jsmith, Path OU = Sales). Created Security group Sales-Team Via New-ADGroup and added jsmith via Add-ADGroupMember. Verified the membership with Get-ADGroupMember. Set their department and title attributes via Set-ADuser. Temporary password also set with change password at logon flag.

Jane's account (jsmith) is created and added to Sales-Team. Temporary credentials will be sent separately. She will be prompted to set her own password after her first login.
